

# SHUJAAT MALLICK

Front End Developer

House No L-309  
North Karachi, Karachi  
**+92 (311) 2957276**  
**shujaatmallick@gmail.com**

## SUMMARY

Dynamic Frontend Developer with experience in creating responsive, user-friendly web interfaces using modern JavaScript frameworks such as React and Angular. Proficient in translating UI/UX designs into high-quality code while ensuring cross-browser compatibility. Demonstrated ability to optimize application performance and integrate APIs, contributing to seamless user experiences. Ready to leverage technical skills and teamwork to add value as a Junior Web Designer.

## EXPERIENCE

### Dk Digital Solutions, Karachi — *FRONTEND DEVELOPER*

October 2023 - Present

Engineered responsive, user-friendly web interfaces utilizing modern JavaScript frameworks such as React, Vue.js, and Angular.

Transformed UI/UX design wireframes into high-quality code, ensuring compatibility across various browsers and devices.

Collaborated closely with backend developers, designers, and product managers to deliver coherent user experiences.

Streamlined application performance by reducing load times and enhancing usability.

Integrated RESTful APIs and third-party services to broaden functionality.

Maintained clean, reusable code while adhering to best practices in version control (Git) and agile development workflows.

## EDUCATION

### NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY, Karachi — *MASTER IN DATA SCIENCE*

January 2025 - Present

The graduate program focused on advanced topics in data analytics, machine learning, statistical modeling, and big data technologies.

English , Urdu

## **NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY, Karachi — *BACHELORS IN APPLIED PHYSICS***

September 2019 - September 2023

Undergraduate degree with emphasis on physics fundamentals, electronics, instrumentation, and computational methods.

### **PROJECTS**

#### **SMM Production Frontend — React Js with Vite**

Developed a responsive frontend for an SMM (Social Media Marketing) panel using React and Vite, featuring a modern UI, Redux state management, and real-time updates via WebSockets. Integrated APIs with Axios, utilized Formik/Yup for form handling, and employed React Router and Sass for seamless navigation and modular styling, streamlining social media management, collaboration, and automation.

#### **Booking Plugin (Wordpress) — *PHP***

Developed a WordPress booking plugin with custom post types, AJAX functionality, payment processing, and email notifications. Features include dynamic booking forms, admin settings for pricing and seat management, and multilingual support.

#### **Payment Gateway IntegrationPlugin (Wordpress) — *PHP***

Built a WordPress plugin integrating Plugnpay payment gateway with a booking system, supporting secure card payments, admin settings, dynamic forms, and AJAX booking with robust validation and error logging.
